MONTHLY REPORT

STATUS OF NAVAL AIRCRAFT

U.S. NAVAL AIR STATION
PENSACOLA, FLA.
FEB 12 1940

THIS REPORT IS A SUMMARY OF THE GENERAL STATUS OF NAVAL AIRCRAFT, AS SHOWN BY THE RECORDS IN THE BUREAU OF AERONAUTICS ON

31 JAN 1940

NOTE

As the Bureau's records depend upon receipt of reports from the various aviation activities, some of which are several weeks in transit, and as aircraft, which have been wrecked, lost or worn out in service, are included until officially stricken from the Navy list, it is impossible to show the actual status of aircraft on any given date.

Since the Bureau's records are changing continually any other reports not prepared at the same time, probably will not agree with this report.

NAVY DEPARTMENT

BUREAU OF AERONAUTICS

C.O.N.A.S.
PENSACOLA, FLA.

RECEIVED

MONTHLY REPORT

STATUS

OF

NAVAL AIRCRAFT

THIS REPORT IS A SUMMARY OF THE GENERAL STATUS OF NAVAL AIRCRAFT, AS SHOWN BY THE RECORDS IN THE BUREAU OF AERONAUTICS ON

29 FEB 1940

NOTE

As the Bureau's records depend upon receipt of reports from the various aviation activities, some of which are several weeks in transit, and as aircraft, which have been wrecked, lost or worn out in service, are included until officially stricken from the Navy list, it is impossible to show the actual status of aircraft on any given date.

Since the Bureau's records are changing continually any other reports not prepared at the same time, probably will not agree with this report.

NAVY DEPARTMENT

BUREAU OF AERONAUTICS

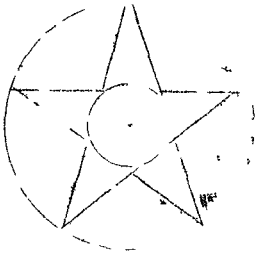

MONTHLY REPORT

STATUS

OF

NAVAL AIRCRAFT

THIS REPORT IS A SUMMARY OF THE GENERAL STATUS OF NAVAL AIRCRAFT, AS SHOWN BY THE RECORDS IN THE BUREAU OF AERONAUTICS ON

MAR 31 1940

NOTE

As the Bureau's records depend upon receipt of reports from the various aviation activities, some of which are several weeks in transit, and as aircraft, which have been wrecked, lost or worn out in service, are included until officially stricken from the Navy list, it is impossible to show the actual status of aircraft on any given date.

Since the Bureau's records are changing continually any other reports not prepared at the same time, probably will not agree with this report.

RECEIVED

MONTHLY REPORT

STATUS

OF

NAVAL AIRCRAFT

THIS REPORT IS A SUMMARY OF THE GENERAL STATUS OF NAVAL AIRCRAFT, AS SHOWN BY THE RECORDS IN THE BUREAU OF AERONAUTICS ON

APR 30 1940

NOTE

As the Bureau's records depend upon receipt of reports from the various aviation activities, some of which are several weeks in transit, and as aircraft, which have been wrecked, lost or worn out in service, are included until officially stricken from the Navy list, it is impossible to show the actual status of aircraft on any given date.

Since the Bureau's records are changing continually any other reports not prepared at the same time, probably will not agree with this report.

NAVY DEPARTMENT

BUREAU OF AERONAUTICS

MONTHLY REPORT

STATUS

OF

NAVAL AIRCRAFT

THIS REPORT IS A SUMMARY OF THE GENERAL STATUS OF NAVAL AIRCRAFT, AS SHOWN BY THE RECORDS IN THE BUREAU OF AERONAUTICS ON

MAY 31 1940

NOTE

As the Bureau's records depend upon receipt of reports from the various aviation activities, some of which are several weeks in transit, and as aircraft, which have been wrecked, lost or worn out in service, are included until officially stricken from the Navy list, it is impossible to show the actual status of aircraft on any given date.

Since the Bureau's records are changing continually any other reports not prepared at the same time, probably will not agree with this report.

NAVY DEPARTMENT

BUREAU OF AERONAUTICS

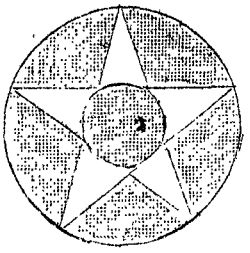

MONTHLY REPORT

STATUS

OF

NAVAL AIRCRAFT

THIS REPORT IS A SUMMARY OF THE GENERAL STATUS OF NAVAL AIRCRAFT, AS SHOWN BY THE RECORDS IN THE BUREAU OF AERONAUTICS ON

JUN 30 1940

36-37

NOTE

As the Bureau's records depend upon receipt of reports from the various aviation activities, some of which are several weeks in transit, and as aircraft, which have been wrecked, lost or worn out in service, are included until officially stricken from the Navy list, it is impossible to show the actual status of aircraft on any given date.

Since the Bureau's records are changing continually any other reports not prepared at the same time, probably will not agree with this report.

NAVY DEPARTMENT

BUREAU OF AERONAUTICS

MONTHLY REPORT

STATUS

OF

NAVAL AIRCRAFT

THIS REPORT IS A SUMMARY OF THE GENERAL STATUS OF NAVAL AIRCRAFT, AS SHOWN BY THE RECORDS IN THE BUREAU OF AERONAUTICS ON

JUL 31 1940

NOTE

As the Bureau's records depend upon receipt of reports from the various aviation activities, some of which are several weeks in transit, and as aircraft, which have been wrecked, lost or worn out in service, are included until officially stricken from the Navy list, it is impossible to show the actual status of aircraft on any given date.

Since the Bureau's records are changing continually any other reports not prepared at the same time, probably will not agree with this report.

MONTHLY REPORT

STATUS

OF

NAVAL AIRCRAFT

Ai 1(3.9)
6
.m.1

THIS REPORT IS A SUMMARY OF THE GENERAL STATUS OF NAVAL AIRCRAFT, AS SHOWN BY THE RECORDS IN THE BUREAU OF AERONAUTICS ON

AUG 31 1940

NOTE

As the Bureau's records depend upon receipt of reports from the various aviation activities, some of which are several weeks in transit, and as aircraft, which have been wrecked, lost or worn out in service, are included until officially stricken from the Navy list, it is impossible to show the actual status of aircraft on any given date.

Since the Bureau's records are changing continually any other reports not prepared at the same time, probably will not agree with this report.

MONTHLY REPORT

STATUS

OF

NAVAL AIRCRAFT

1940 OCT 14 AM 7 55

THIS REPORT IS A SUMMARY OF THE GENERAL STATUS OF NAVAL AIRCRAFT, AS SHOWN BY THE RECORDS IN THE BUREAU OF AERONAUTICS ON

SEP 30 1940

NOTE

As the Bureau's records depend upon receipt of reports from the various aviation activities, some of which are several weeks in transit, and as aircraft, which have been wrecked, lost or worn out in service, are included until officially stricken from the Navy list, it is impossible to show the actual status of aircraft on any given date.

Since the Bureau's records are changing continually any other reports not prepared at the same time, probably will not agree with this report.

BUREAU OF AERONAUTICS

MONTHLY REPORT

STATUS

OF

NAVAL AIRCRAFT

THIS REPORT IS A SUMMARY OF THE GENERAL STATUS OF NAVAL AIRCRAFT, AS SHOWN BY THE RECORDS IN THE BUREAU OF AERONAUTICS ON

OCT 31 1940

NOTE

As the Bureau's records depend upon receipt of reports from the various aviation activities, some of which are several weeks in transit, and as aircraft, which have been wrecked, lost or worn out in service, are included until officially stricken from the Navy list, it is impossible to show the actual status of aircraft on any given date.

Since the Bureau's records are changing continually any other reports not prepared at the same time, probably will not agree with this report.

NAVY DEPARTMENT

BUREAU OF AERONAUTICS

MONTHLY REPORT

STATUS

OF

NAVAL AIRCRAFT

A9-4(SA)

(C-4)

THIS REPORT IS A SUMMARY OF THE GENERAL STATUS OF NAVAL AIRCRAFT, AS SHOWN BY THE RECORDS IN THE BUREAU OF AERONAUTICS ON

NOV 30 1940

NOTE

As the Bureau's records depend upon receipt of reports from the various aviation activities, some of which are several weeks in transit, and as aircraft, which have been wrecked, lost or worn out in service, are included until officially stricken from the Navy list, it is impossible to show the actual status of aircraft on any given date.

Since the Bureau's records are changing continually any other reports not prepared at the same time, probably will not agree with this report.

NAVY DEPARTMENT

BUREAU OF AERONAUTICS

MONTHLY REPORT

STATUS

OF

NAVAL AIRCRAFT

THIS REPORT IS A SUMMARY OF THE GENERAL STATUS OF NAVAL AIRCRAFT, AS SHOWN BY THE RECORDS IN THE BUREAU OF AERONAUTICS ON

DEC 31 1940

NOTE

As the Bureau's records depend upon receipt of reports from the various aviation activities, some of which are several weeks in transit, and as aircraft, which have been wrecked, lost or worn out in service, are included until officially stricken from the Navy list, it is impossible to show the actual status of aircraft on any given date.

Since the Bureau's records are changing continually any other reports not prepared at the same time, probably will not agree with this report.
